

*For family fun, sail a Rebel!  
The Rebel is a solid, stable boat the  
whole family can race. It's backed by  
a strong national association that  
emphasizes the main reason to  
sail...fun!*

*Join us for the fun of it!  
For more information, visit our  
National Rebel Website:  
[rebelsailor.com](http://rebelsailor.com)*

*Race a  
Rebel*

**Sailing**

*for the  
fun of it!*

## **Social activities for the whole family!**

*Our National Class Association provides quality events on and off the water. The Rebel is easily sailed by two. Husband/wife and parent/child teams have been the mainstay of our class for years.*

*Our Junior Program features a National Championship in conjunction with the senior nationals every year. Social activities accompany every regatta—new friendships are made... old ones maintained.*

# **Rebel**

## **The Rebel—solid construction...solid performance!**

*Since becoming the first production fiberglass one-design in 1948, the Rebel has remained competitive. The integrity of the one-design has been maintained, so even 25-year old boats are winning races and holding their value.*

*The Rebel is a solid performer in all wind conditions including light breezes—which is important because winds are light 70% of the time. Unlike some high performance boats, the Rebel has outstanding light air speed.*
